
WESTERN STATE COLLEGE OF LAW

Career Resources Department

Reciprocity Policy

The Career Resources Department of Western State School of Law provides reasonable access to its resources to students and alumni of law schools outside the Southern California area as follows:

1. Services are available to students and alumni of law schools that allow Western State College of Law students and alumni to utilize their services.
2. Reciprocity is extended solely to current students and to alumni who have graduated within the prior 3 years. Please include the person's graduation date (or anticipated graduation date) in the reciprocity request.
3. Western State grants reciprocity to students and alumni from other law schools provided they have not already been granted reciprocity by another Southern California area law school within the prior 90 days.
4. Services are available to the students and alumni of a particular law school solely on a case-by-case basis.
5. Students and graduates requesting reciprocity should not contact our office directly. Requests for reciprocity must be made in writing by a career services official and sent via mail, fax, or e-mail.
6. Available services include access to including handouts, and career counseling. Participation in Recruitment Programs, including on-campus interviewing and resume collections, and access to Western State's Symplicity employer database is not included.
7. Services are available to students and alumni for a three-month period of time, commencing from the date reciprocity is granted. Individuals granted reciprocity must schedule an appointment with Career Resources and bring the letter approving the grant of reciprocity.
